KI Campus Ostbayern: AI-Talk for PhDs and doctoral candidates

Date: Thursday, 1st December 2022, 2:00 - 5:00 p.m.

Venue: OTH Regensburg, Studierendenhaus

Are you researching the topic of AI for your doctorate? Are you looking for the opportunity to exchange ideas on your dissertation project with other PhD students? Would you like to expand your network of PhD students in the field of AI? Then the "AI-Talk for PhD students" is the right place for you.

The event aims at all young researchers at Eastern Bavarian universities who are currently working on their PhD in the field of artificial intelligence. In the event on December 1, 2022, current AI related PhD projects are presented and discussed. In a subsequent networking format, you can connect with others and benefit of the various cooperation opportunities in the KI Campus Ostbayern.

What is the KI Campus Ostbayern?

The KI Campus Ostbayern is a cooperation platform with which the Eastern Bavarian universities (OTH Amberg-Weiden, OTH Regensburg, Landshut University of Applied Sciences, TH Deggendorf, University of Regensburg and University of Passau) bundle their competencies on the topic of artificial intelligence, strengthen scientific exchange and expand cooperation with business and society. The KI Campus Ostbayern was founded in 2020 and is coordinated and organizationally supported by the INDIGO network (Internet und Digitalisierung Ostbayern). For more information regarding the KI Campus Ostbayern, please visit the homepage of the INDIGO network.

Venue

The event will take place in the Studierendenhaus of the OTH Regensburg (address: Seybothstraße 2, 93053 Regensburg).

Registration

Participation in the event is free of charge, but registration is required for organizational reasons. Deadline for registration is November 29, 2022.
